Vaaradhi Data Analysis

As noticed in the above screen shots, we have tried to explore and identify the following categories among Vaaradhi children.

- ✓ **Students with Special Skills such as Drawing, Singing, Sports, Poetry etc**

We will continue to monitor and offer special training to these students in the area that they have interest and talent so that they can realize their own potential and can choose a right career path.

- ✓ **Students with Leadership Qualities**

These are the students whom we can groom and they will act as our change agents to motivate other students in the class. We are planning to arrange special workshops for these children so that they can get better with life skills such as public speaking, empathy, interpersonal relationships and continue to outperform rest of the class in academics and gradually become successful and responsible citizens of India. These are potential success stories of Vaaradhi Project.

- ✓ **Students with HIV Positive**

These are children infected by mother/father and continue in the school. They are on regular medication and we continue to provide them nutritional supplements with a hope that they may get back to normal slowly.

Basic Needs at Home

As part of this project, each child is provided with 2 pairs of cloths to wear at home (**daily wear**).

All adolescent girls are continued with the supply of **sanitary napkins** for next few months. This will help these girls not to skip classes during the menstrual periods. Also, the awareness sessions are scheduled in each school by Sweccha team at Padala Charitable Trust.

Medical Checkups

We did review the medical condition of all students during our interactions with them at cloth distribution events. Several of them needed medical attention

General Check Up & Orho - Sai Sudha Hospital, Kakinada (*Dr. Ravi Vadrevu*)

Dental Care - Sridevi Dental Clinic, Kakinada (*Dr. Rao Narayana Rao*)

Eye Care - Sri Kiran Institute of Ophthalmology, Kakinada (*Dr. Chandrasekhar*)

Eye Care - Sri Gauthami Eye Clinic, Rajhmundry (*Dr. Madhu*)

ENT Care - Dhanush E.N.T Clinic, Kakinada (*Dr. Ravi Kumar Raju*)

General Check Up - Annapurna Mother and Child Hospital, Pithapuram (*Dr. P. Naga Raju*)

Remedial Teaching

For most of the children under Project Vaaradhi, we found the need of remedial teaching as part of improving their academic standards and help them be competent enough. In this programme the children are provided with training on basic math, telugu (read and write) and english (read and write).

We have hired some local graduates for this purpose. We pay an honorarium and also reimburse them the commuting expenses to and from the school campus. However, we don't seem to notice drastic improvement due to several challenges in this attempt. We are meeting each school representative & children and trying to come up with root causes and better mechanism to handle poor academic standards in the children. We should have complete documentation on this in couple

of weeks. We are also involving the local experts (MEOs, DyEO, Retired District Educational Officers) to help us out with this.
